UPDATES & UPCOMING EVENTS

* Septic System Bids

We are currently gathering bids on septic design and installation

* Board Meeting

October 16, 2025

The Board of Trustees will be holding an in-person meeting at 4:30 PM at 33 Lamplighter Park, North Conway, NH 03860.

* Pre-Enrollment

We are officially accepting "Intent to Enroll" applications for the 2026-2027 school year! If you are considering enrolling your child/children at BACS, please fill out our form located on our website (Click on "Admissions", then on the "Enrollment" tab).

Rooted in Community

At Breakthrough Academy Chartered Public School (BACS), we believe our students benefit most when their education is grounded in real-life connections - and there's no better place to start than right here in Tamworth, NH. Our rural town (and surrounding area) is home to many small farmers, craftsmen, and a popular farmers' market which underscores the rich local agriculture tradition. As we prepare to open our doors, we're fortunate to already have connections with community members who are eager to share their expertise. These local mentors will visit classrooms, lead hands-on projects, host workshops, and bring living examples of careers in farming and nature into our students' learning.

This collaboration isn't an afterthought - it's at the heart of who we are. By inviting local experts and skilled community members into our classrooms, we're creating an environment where students can see the direct connection between what they learn and the world around them. Whether it's agriculture, trades, science, or the arts, our goal is to show students that learning is all around them; that knowledge shared by neighbors and local professionals can be just as valuable as what's found in textbooks. Together, we're building a culture of hands-on discovery and lifelong learning that extends well beyond the classroom.

Rooted in Community

We're also excited to launch a 4-H club at BACS, beginning in fall 2026. Students enrolled in our school will have the opportunity to join, and we will open membership to children in the wider community as well. Through 4-H, young people will explore agriculture, leadership, science, and service with support both from our volunteers and from community experts. It's another bridge between the school and the broader community, enabling families to engage, learn, and grow together.

If you're someone in the community who has a farm, a trade, scientific expertise, or a passion for teaching, we'd love to hear from you. Whether hosting a workshop, mentoring a student, or contributing to a project, your involvement is vital. Please consider volunteering your time or expertise and join us in shaping a learning environment that honors our community's heritage while preparing our children for the future.

Property Progress

While we wait for our classrooms to arrive, we have been adding some new structures to the property! We have purchased two ready-built, Old Hickory sheds from Beacon Sheds in Ossipee. They will be used as future animal housing and storage for animal supplies.

We have also purchased a multi-purpose tractor from United Ag & Turf in Ossipee.

Fall Clean-Up

On Friday, October 3, we had some prospective students and their families volunteer to help with fall clean up on the property. We cleared brush, small trees, and did some general landscaping in order to prepare for the delivery of our new sheds.

We are also looking forward to having trees removed and the rest of the property cleared in order to make way for our classrooms and create space for animals.

Get Involved!

We are always looking for local experts to volunteer their services in any way. If you have a skill or service that you are willing to share, please contact us! We will also have general volunteer opportunities as we move through our preparation to open.
